

Appointment of Claire Jolicoeur as General Manager of TECHNIDATA Canada, regional headquarters of the TECHNIDATA Group in North America.

Montbonnot, January 21, 2016

Claire Jolicoeur joined the clinical laboratory and biobank software supplier TECHNIDATA on January 11, 2016, as General Manager of TECHNIDATA Canada – the group's regional headquarters for the North American region, based in Montreal, Canada. She succeeds Thierry Jeudy, Senior Vice President of the TECHNIDATA Group in charge of subsidiaries.

Recognized experience in health care and the medical laboratory sector

Holder of a degree in Medical Technology and a Bachelor's degree in Business Administration from Laval University in Quebec, Claire Jolicoeur possesses nearly 25 years' experience as consulting Director and Head of internal resources in healthcare organizations as well as in the medical laboratory sector in Quebec.

With strong experience in consulting, organization and computerization within Quebec health institutions, Claire also has expertise in the field of finance and change management.

Claire began her career as a Medical Cytology Technologist in hospitals both in Canada and Europe before joining **Girard, Roy and Associates** - a firm of consulting experts for the Canadian health system - and then **Medisolution** as Consulting Director. She later joined the **CIM Company - Capital and Management Council** - carrying mandates for various clients in strategic technological and organizational areas, before joining the **AQESSS** (*Association Québécoise des Établissements de Santé et de Services Sociaux*) in 2012 as Advisor of post informational network resources, Head of products and Director of internal resources.

Under the leadership of Thierry Jeudy, Senior Vice President of the TECHNIDATA Group in charge of subsidiaries - who has held the interim position since the departure of Jacquelin Paré – Claire Jolicoeur will be in charge of TECHNIDATA's development in Canada and the United States.

"I aim to promote the expansion of TECHNIDATA in North America, to conquer new markets and accompany TECHNIDATA in becoming an industry leader in Canada and the United States", explains TECHNIDATA Canada's new General Manager.

TECHNIDATA Canada, a beacon in North America

As a major player in the French software market for medical laboratories and biobanks, TECHNIDATA was established in the United States as a subsidiary in Tucson, Arizona, in July 2005. In 2009, the TECHNIDATA Canada subsidiary was created in Montreal becoming the regional headquarters of the Group for North America as well as a strategic base for the international development of the Group, also present in Europe and Asia Pacific.

To this day, TECHNIDATA Canada customers include prestigious hospitals, private laboratories and clinical research centers such as Diagnostic Laboratory Services, Inc. in Hawaii, Dominion Diagnostics - the largest laboratory specializing in addiction medicine in the United States and the CHU de Québec (University Hospital of Quebec) - a cluster of hospitals that processes nearly 13,000 applications in biochemistry, hematology, microbiology and 4,000 in anatomic pathology on a daily basis.
